+593 96 400 6451 - Guayaquil, Ecuador

## Professional Summary

I am a software developer passionate about technology and continuous learning, specialized in problem-solving through programming. I work as a full-stack web developer, contributing to a variety of projects. I have implemented automation solutions and optimized workflows to improve efficiency. I am always seeking innovative initiatives and new collaboration opportunities.

## Experience

**Fullstack Developer - NetEvolution S.A.S, Guayaquil, Ecuador**

June 2025 – Present

- Frontend and backend maintenance and development for a crypto MVP platform (*React, React Router, NodeJS, Express, MongoDB, External APIs*)
  - Frontend and backend development of an electronic delivery note (Guías de Remisión) platform (*Angular, Angular Material, Angular Guards, Angular Interceptors, C#, ASP.NET, JWT, SQL Server, Azure Data Studio*)
  - Fullstack development for accounting software (*Laravel, PHP, JWT, Middlewares, MVC, MySQL Workbench*)
  - Server connections for configuration in production environments (*SSH, SSH Tunnel, Bash*)
  - Linux system management for development (*Fedora Workstation 42*)
  - Version control (*Git*)

**Fullstack Developer - Grupo A&G, Guayaquil, Ecuador**

April 2025 – June 2025

- Maintenance and feature development for a Poker tournament management platform (*Laravel, Blade Templates, Laravel Sanctum*)
  - Design, development, and maintenance of an internal events calendar platform (*Angular, Angular Bootstrap, Angular Calendar*)
  - AI-powered web chatbot implementation for customer support (*JavaScript, Tawk.to*)
  - Database management across all projects (*MySQL, phpMyAdmin*)
  - Project containerization for easy deployment (*Docker, Bash*)
  - Linux system management for development (*Ubuntu*)
  - Production deployment (*cPanel*)

## Education

---

### Software Engineering

2023 – Present

*Universidad Tecnológica Ecotec, Samborondón, Ecuador*

Training in software development, development methodologies, databases, and embedded systems, with experience in intelligent architectures, data analysis, frontend, and backend development.

### German A2.2 and A2.1

2022 – 2023

*Ecuadorian-German Cultural Center, Guayaquil, Ecuador*

Ability to understand and communicate in everyday situations, read texts, and write basic messages. Achieved after evaluation following initial self-directed learning.

## Relevant Certifications and Courses

---

- Platzi Certifications in .NET: APIs with .NET Course Entity Framework Fundamentals Course.
- Platzi Certifications in Golang: Unit Testing Course REST and WebSockets Course Concurrency and Design Patterns Course.
- Other relevant Platzi Certifications: AWS (Amazon Web Services) Fundamentals Course Professional Git and GitHub Course.

## Languages

---

English (Upper-Intermediate/Advanced), German (Basic knowledge), Spanish (Native)

## Skills

---

Self-taught, effective interpersonal communication, teamwork, prompt engineering, problem-solving, high adaptability, and proactivity.
